## Brief Description

This class is aimed at those with at least 10 weeks of previous experience. The class is designed to teach rhythm, co-ordination, terminology and the steps that are the building blocks for all tap dancing. Each session will consist of a warm-up, technique exercises and combinations before moving on to basic tap choreography. This is a great dance class for having fun while developing tone and strength in the legs and hips.

## Learning outcome

You will have learnt the basic steps and be able to demonstrate these through simple

combinations to music. You will be able to recall sequences to build on movement memory and technical skills. You will also have improved

confidence in your body and developed skills to improve flexibility and muscle tone.

## How progress & success will be recorded

As students learn the steps they should be able to perform more complex steps and dance to an increasingly wider variety of music styles. Direct feedback and support will be provided during class.

## What you need to bring to the first session

Please wear suitable clothing for dance, such as leggings/jogging bottoms and a t-shirt. Tap shoes are **not** a requirement initially but suitable footwear such as ballet pumps, low-heeled ballroom/character shoes or jazz shoes should be worn. Please bring a bottle of water.

## On completion of the course, what might your next steps be

Progress to an advanced class.
