TUTOR: Sarah Hunt

This workshop will teach students how to cut glass and then how to create fused glass artworks, using special glass materials which are all designed to fuse together in the kiln.

Students will work with flat glass, frit (ground glass), noodles, stringers, confetti, millefiori and dichroic glass. These will all be layered up to make jewellery and artworks.

The glass pieces are then fired in the kiln and should be available for collection at the end of the week.

Students will then have lovely and permanent pieces of art glass.

All materials and tools will be provided.

An additional fee of £25 to be paid to the tutor on the day for materials and firing.
