

CREATIVE DIGITAL PHOTOGRAPHY FOR BEGINNERS

Cottenham Summer School

22 - 26 July 2019

5 DAY COURSE: Monday 22nd—Friday 26th July 2019

10am – 4pm

FEE: £275

including lunch and refreshments

TUTOR: Denis Pemberton

This is a 5 day intensive course, suitable for both complete beginners and those with some experience, where you will learn the basics of Digital Photography. Each day you will learn something new both technical and practical with several assignments relevant to the information learnt on the day. Some of the practical areas covered will be: shooting landscapes; portraits; still life and night shots. You will learn different techniques used in creative composition, styles & genres plus new technical skills every day including aperture control, speed settings, scene modes, menus, using flash, focal lengths and metering.

DAY 1

Introduction and overview of the course; holding a camera correctly; understanding the basics of a digital camera; memory cards and backing up your images (file management); composition & the rules of thirds; menu systems.

DAY 2

Using scene modes; using the flash; understanding depth of field; aperture & shutter priority modes; focal lengths and fields of view; using manual and auto focusing, digital & optical zoom.

DAY 3

Understanding ISO's; metering; focusing and compensation modes; use of different file formats.
